EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, amend the paragraph following the heading "Related Applications" (added in the preliminary amendment filed 19 November 2003) to read:

--This is a continuation of U.S. Patent Application Serial No. 10/641,684, filed August 14, 2003 now Pat. No. 7,257,234.--

2. The following is an examiner's statement of reasons for allowance: None of the prior art teaches or fairly suggests producing watermarked goods having a stealthy representation of a key for extracting the embedded watermark on the periphery thereof, as variously stipulated by claims 53, 60, 66 and 70. The prior art also further fails to teach or suggest extracting a stealthy representation of a defined key from a defined space, time or frequency of subject goods and using the key to extract a watermark from the subject goods, as required by claims 74 and 82.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 53-87 (now renumbered for issue as 1-35, respectively) are allowed.
